💼 PROFESSIONAL EXPERIENCE

Freelance (React.js API integration), Aug 2023 – Oct 2023 | Remote
Frontend Developer | HTML5, JavaScript, SCSS, React.js, Axios
- Engineered a secure **authentication system using JWT tokens** in React.js, **reducing security incidents by 25%** and delivering a seamless login experience
- Implemented a **newsletter integration** feature, driving a **35% boost in user engagement** and a 20% improvement in user retention.
- Spearheaded **Stripe payment** processing integration, **resulting in a 30% revenue increase**, secure transactions, and expanded market reach.

📂 PROJECTS

LuxeHaven (Progressive web app) | MERN 🔗 Nov 2023 – present
- Crafted LuxeHaven, a groundbreaking MERN E-Commerce platform, ensuring a user-centric, secure, and highly efficient shopping experience with **Redux Toolkit (RTK) for state management.**
- **RTK Query** improved **caching** and real-time mutations; facilitates lightning-fast API calls, **reducing product search times by an impressive 50%**. This, combined with the power of Redux, elevates the user experience.
- Skillfully **integrated a robust authentication** system using **JWT-based** user authentication, hashed passwords, and protected routes have effectively **reduced security incidents by 40%**. Meanwhile, administrators benefit from **robust dashboards** that streamline order tracking, user management, and product additions, **increasing efficiency by 30%**.
- **Mongoose ODM** ensures fluid database interactions, while the Express server accelerates response times, **cutting load times by 25%**.
- LuxeHaven, with its captivating Tailwind CSS UI, enhances user engagement by a remarkable 35%. The integration of RazorPay further optimizes the user experience, contributing to a 20% revenue surge.

The Filmagic | React.js, SCSS, Redux, TMDB API 🔗 Feb 2023 – Apr 2023
- Developed a groundbreaking **movie streaming app utilizing the TMDB API**, providing real-time access to detailed information on movies, TV shows, cast, related videos, and insider details.
- **Reduced movie search time by 50%** through a user-friendly interface built with React.js, React Router, and Redux for state management.
- **Implemented performance optimization** techniques such as Lazy Loading, Code Splitting, and custom Hooks, resulting in a significant **33% reduction in initial page load time**.
- Enhanced user engagement and **reduced bounce rates** by incorporating **Shimmer** Loading Animation UI and **React Infinite Scroll**.

🧠 SKILLS

Frameworks / Libraries:
React.js, Node.js, Redux Toolkit, React Router, Tailwind CSS, SASS, Express.js

Languages:
JavaScript, Java, HTML5, CSS3, MongoDB

Tools / Version Control:
Git, GitHub, Netlify, REST API, Parcel, Postman

Familiar:
Familiar: Python, UI/UX Principles, REST API, MVC, SQL

🎓 EDUCATION

B.Tech in Computer Science, Viswam Engineering College 2022 | AP, India

Higher Secondary School, 2018 | AP, India
Chaitanya Junior College 2018 | Percentage: 96%

Higher Secondary School, Z.P.H.S 2016 | AP, India

📜 CERTIFICATES

Full Stack JavaScript Web Developer 🔗
